WHAT TO DO DURING A GITHUB DISASTER

1 ## DO YOUR RESEARCH
Familiarize yourself with the risks that could occur in your project

2 ## TELL EVERYONE TO STOP PUSHING
Coordinate with your team on your protocol during an emergency. Stop doing stuff immediately.

3 ## LET SOMEONE ELSE FIX IT
They should know what they are doing and hopefully work for free

4 ## STAY INFORMED
Contact your team government to find out how they will share alerts and instructions during an emergency
